

PRINCY PATLE

AI ML Engineer

☎ +91-97701653156 ✉ princypatle10@gmail.com 🔗 linkedin.com/in/princy-patle 🐙 github.com/in/missprincy20

Summary

Computer Science undergraduate passionate about AI, ML, and Backend Development, with hands-on experience building AI-powered applications. Proficient in Python, TensorFlow, PyTorch, Scikit-learn, and SQL for developing end-to-end AI solutions and REST APIs. Familiar with Deep Learning, Computer Vision, Large Language Models (LLMs). Passionate about solving real-world problems through clean, efficient, and scalable software solutions.

Skills

Programming Languages: Python

Machine Learning: Supervised Learning, Unsupervised Learning, Feature Engineering, Model Evaluation

Deep Learning: TensorFlow, CNNs, Neural Networks

Computer Vision: TensorFlow, MediaPipe, NumPy, Pandas, Scikit-learn, Image Classification

NLP & GenAI: NLP, LLMs, Transformers, Prompt Engineering, RAG

Tools: Git, GitHub, VS Code, Postman, Google-colab

Concepts: Object-Oriented Programming (OOP), REST APIs, Backend Development, MLOps

Experience

AI & ML Intern

Jun 2026 – August 2026

Unlox (Remote)

Tools Used: EDA, MLOps, RAG, LLMs, Git

- Developed AI/ML solutions using **Python, Machine Learning Models, RAG, and Gen AI Technologies.**
- Built AI-powered projects including a Resume Analyzer and Domain-Specific RAG Chatbot, implementing data processing, semantic search, and intelligent response generation.
- Used tools and frameworks such as Scikit-learn, Hugging Face, FAISS, and LLM APIs, Streamlit, while managing project code with Git/GitHub.

Projects

AI Resume Analyzer & Job Recommendation System

June 2026 – July 2026

- Developed an AI-powered resume analysis system to extract **skills, evaluate resume-job compatibility, and recommend suitable job roles.**
- Implemented resume parsing, text preprocessing, skill extraction, and semantic similarity using **NLP, TF-IDF, and Sentence Transformers.**
- Generated match scores, identified missing skills, and provided personalized learning roadmaps based on job requirements then integrated LLM capabilities to provide intelligent career recommendations.

Domain-Specific RAG Chatbot | Python, LangChain, FAISS, Hugging Face, Groq

June 2026 – July 2026

- Developed a Retrieval-Augmented Generation chatbot that answers questions from user-uploaded PDF documents.
- Implemented document processing, recursive text chunking, embeddings, and FAISS vector database for semantic search.
- Built a retrieval pipeline to identify relevant document context and generate accurate responses using LLMs.
- Integrated Groq-powered LLMs and prompt engineering to improve responses and document-based question answering.

AI Placement Preparation Agent | Python, LLMs, NLP, Streamlit

Jan 2026 – Feb 2026

- Developed an AI-powered placement preparation assistant to help students prepare for technical interviews, coding rounds, and HR interviews.
- Implemented LLM-based question generation and personalized responses based on user-selected roles and preparation requirements.
- Integrated NLP and prompt engineering techniques to generate relevant interview questions, explanations, and preparation guidance.
- Designed an interactive application with Hindi and English language support to provide personalized placement preparation and improve interview readiness.

Customer Churn Analysis | *Python, Matplotlib, Seaborn, Streamlit*

Jan 2026 – Feb 2026

- Developed a machine learning-based customer churn analysis system to identify customers at risk of leaving a service.
- Performed data preprocessing, exploratory data analysis (EDA), feature analysis, and visualization to uncover key churn patterns.
- Built and evaluated classification models including Logistic Regression and Random Forest using accuracy, precision, recall, and F1-score.
- Developed an interactive Streamlit dashboard to visualize customer behavior, churn insights, and model predictions for data-driven retention decisions.

Awards & Certifications

- **AI/ML Internship - Unlox (2026)**
- **Data Analytics Essential Course - Cisco Networking Academy (2024)**
- **Value-Added Course on Universal Human Values - OPJU (2023)**

Education

B.Tech Computer Science

OP Jindal University Raigarh, Chhattisgarh

Graduation Expected: July 2027

CGPA: 7.7 / 10
